They developed their patented HEALING CONCENTRATE™ to deliver therapeutic minerals to the deepest layers of the skin, RESULTING in a PLUMPER, YOUNGER-LOOKING COMPLEXION.

THE OMOROVICZA STORY

A skincare brand like no other, combining healing natural ingredients, cutting-edge scientific innovation and rich heritage.

The Omorovicza journey began over 2,000 years ago, when the healing properties of Hungary’s thermal waters were discovered, and the first thermal baths were built. The secret to why Hungarian thermal waters have such remarkable healing properties lies in the unique geological features of the region. Here the earth’s crust is thinner, so waters absorb beneficial minerals more effectively as they journey to the surface.

At the turn of the millennium, Stephen de Heinrich de Omorovicza was living in Budapest when he first met US diplomat Margaret, Chief of Staff at the US Embassy in Hungary. Stephen took Margaret to the famous Rác spa that his family built in the 19th century and she was amazed by the effects of the healing waters on her skin. There began Stephen and Margaret’s quest to harness their curative power. The couple enlisted the skills of a Nobel Prize-winning dermatology lab to incorporate them into a skincare range.

With the lab’s expert help, they developed their patented Healing Concentrate™ to deliver therapeutic minerals to the deepest layers of the skin, resulting in a plumper, younger-looking complexion. The results are nothing short of extraordinary: firmer, suppler and younger-looking skin.

Fast forward to today, we are an award-winning luxury skincare brand with a global presence, spanning 5 continents in over 370 stores and 60 spas. Curiosity is at the heart of our work. We believe in forward momentum; that you should always seek to innovate, challenging norms, established methods, ideas and products. Every day we strive to capture the curative magic of Budapest’s healing waters in skincare and, in so doing, create a world where you can *live beautifully!*

What is your favourite product?
My favourite product is definitely the Oxygen Booster, it's like a shot of liquid oxygen for the skin.

What tip do you give to all your clients?
My tip also involves my favourite product! If you add a small amount of Blue Diamond Eye Cream to the Oxygen Booster, it provides a truly dramatic change. Brighter and more youthful looking skin should be expected!

What is your favourite product?
It's so hard to choose just one product, so I will choose three! They would have to be the Oxygen Booster, Blue Diamond Concentrate & the Gold Hydralifting Mask.

What tip do you give to all your clients?
Our elbows and knees can get dry as we sometimes forget to include them in our skincare routine. However, by using a small amount of the Blue Diamond Resurfacing Peel on your elbows and knees, they will be left soft and bright.
